CP200A

CPAP/APAP Machine

Respiratory equipment with humidifier

CP200A product image

The CP200A CPAP/APAP machine has an integrated heated humidifier and comes with standard 6-foot CPAP tubing and a carrying bag. A Micro SD memory card, power cords, air filters and user manual are also listed with the machine.

What accompanies the machine

The package includes standard 6-foot CPAP tubing, a Micro SD memory card, carrying bag, power cords, air filters and user manual. Ask ProLine to confirm the compatible mask and whether it is supplied separately.

Confirm the required equipment setup

Use the CP200A model reference when confirming the required equipment configuration with the provider. Ask ProLine for current operating and care documentation, equipment compatibility and any additional components required.

FEATURES

- Integrated heated humidifier
- Standard 6 ft CPAP tubing
- Carrying bag supplied
- Automatic pressure-adjustment function
- Power-failure and air-leak alerts
