CP2500

Triple Zone CPAP Sanitizer

CPAP equipment accessory

CP2500 product image

The CP2500 is listed as a triple-zone CPAP sanitizer with UV and ozone functions, an activated-carbon filter and USB charging. Its accessory package includes tubing adapters and a sealed bag.

Identify the listed functions

The listed configuration combines UV and ozone functions with an activated-carbon filter. Tubing adapters and a sealed bag are supplied; ask ProLine to confirm compatibility with the intended equipment.

Check approved use and compatibility

Request the manufacturer's operating instructions and equipment-compatibility guidance before choosing this accessory. Sanitization efficacy, cycle duration and device compatibility are not specified in this listing.

FEATURES

- UV and ozone functions
- Activated-carbon filter
- USB charging
- Battery-powered; battery capacity not specified
