# CP300B

## BIPAP Machine

Respiratory equipment with humidifier

CP300B product image

The CP300B is a BIPAP machine with an integrated heated humidifier and listed CPAP, S, T, S/T and APCV modes. The product package brings the machine, tubing, storage card and carrying items together.

### Machine and supplied accessories

The package includes standard 6-foot CPAP tubing, a Micro SD memory card, carrying bag, power cords, air filters and user manual. The heated humidifier is integrated into the equipment configuration.

### Confirm the specified configuration

Confirm the required equipment configuration, compatible mask and operating documentation with the equipment provider. Pressure ranges and detailed operating settings are not specified in this listing.
