CP600

Nasal Mask

Nasal interface in three sizes

CP600 product image

The CP600 nasal mask is offered in small, medium and large sizes. The size range provides distinct mask options for an existing respiratory equipment setup, with dimensions listed separately for each size.

Compare the actual mask size

The small mask measures 5.4 by 3.5 by 3.6 inches, the medium 5.9 by 3.7 by 3.7 inches and the large 5.9 by 3.7 by 3.8 inches, in height, width and depth. Compare the dimensions as well as the size name when discussing the required mask with ProLine.

Complete the equipment match

Confirm the selected size, equipment compatibility and supplied components with ProLine before ordering.

FEATURES

- Small, medium and large sizes
