HC5000SEHR

HC5000 Semi-Electric Homecare Bed

Semi-electric bed with slat-style deck

HC5000SEHR product image

The HC5000 semi-electric homecare bed provides powered head and foot positioning through a pendant controller. Its slat-style deck and included half rails define the listed configuration.

Separate positioning from height

The pendant controller operates the listed head and foot positioning functions. Ask ProLine to confirm the height-adjustment method and required setup for this semi-electric model.

Plan mattress and total load

The sleep deck is listed at 35 by 80 inches, with a standard deck-height range of 11 to 22 inches. The evenly distributed 450lb total capacity includes the occupant, mattress, rails and accessories; it is not an occupant-only rating.

FEATURES

- Powered head and foot positioning
- Half rails included
- Pendant controller
- Under-bed black-box electric motors
