HC5500FEFR

HC5500FEFR Full-Electric Low Homecare Bed

Low homecare bed with full rails

HC5500FEFR low bed with full rails

The HC5500FEFR full-electric low homecare bed provides powered head, foot and height positioning, with full rails included. Its low configuration has a listed deck-height range of 8 to 19 inches.

Powered adjustment in a low-bed format

Black-box electric motors operate the specified bed adjustments, while the slat-style deck forms the mattress-support surface. This HC5500FEFR configuration pairs the low deck-height range with included full rails.

Account for mattress and accessories

The deck-height range excludes the mattress and accessories. The evenly distributed 450lb total capacity includes the occupant, mattress, rails and accessories. Use the 35 by 80-inch sleep deck and overall dimensions when confirming the complete configuration with ProLine.

FEATURES

- Powered head, foot and height positioning
- Full rails included
- 8-19 in low deck height
- Under-bed black-box electric motors
